

Thank you for attending our exhibition

This is a revised scheme reflecting the views expressed by the community, and planning and conservation officers.

The new facilities will provide improvements to the existing Recreation Ground, and positive benefits to the wider community, including:

- A new sports and community facility, funded by a land sale to Marston's.
- Improved views of the church due to demolition of the existing pavilion.
- A new community pub restaurant to complement the recreation ground and sports pitches.
- Additional parking for school drop-off.
- A new playground.

Our next steps will be to review your comments today and then prepare a planning application for an August / September 2018 submission.

We encourage you to leave any feedback on the comments sheet.
